

## **Lisa Charlton – Business Executive**

My experience working in various industries and roles to date will undoubtedly be an advantage to me when working alongside our clients at Pod Consulting and giving them a valuable service. I can certainly relate to the challenges that smaller businesses in particular face – getting the right people on your team and keeping them with you is key... but that mission is not without its difficulties!

I began my career in the beauty industry and then went off on my big OE, travelling and living in Australia and the UK. Whilst overseas I worked in sales and marketing roles and in PA positions within the beauty and real estate industries. Since returning to New Zealand I have been working as a PA with marketing being part of my remit.

One week into my role at Pod Consulting, I can honestly say that the induction process has been second to none. It has given me a great insight in to the business and I am really thrilled to be a part of the team, working alongside Sharn.

My key objective right now is to provide support to Sharn, the director, in all aspects of the business. I am really looking forward to growing my role within the business and learning off someone who is knowledgeable and passionate about Human Resources and Organisational Development.
